

How to Write a Research Protocol?

Publication Integrity and Ethics

PIE (π)

Certificate and CPD by online distance learning

This online training course offered by **Halbert Education & Training**, and written by UK academics, is aimed at those interested in **how to write a research protocol**. The online delivery method allows materials to be taken at a pace defined by the candidate towards achieving a certificate approved by the **Publication Integrity & Ethics (π)** and continuous professional development (**CPD**) of **20 points** for undergraduates, postgraduates and all professionals. Areas including methodology, power analysis, recruiting and consenting, primary and secondary targets will be discussed as part of this course along with up-to-date case studies and procedures in case of breach of ethical values.

The educational opportunities in this course provide a tailored learning experience targeted at the diverse needs and interests of individuals with backgrounds in **Agriculture sciences, Arts and Humanities, Business, Economy and Management, Chemistry, Earth sciences, Engineering, Environmental sciences, Health sciences, Information technology, Law, Library and Information sciences, Life sciences, Material sciences, Mathematical sciences, Physics, Social sciences and Telecommunications technology**.

The course materials are downloadable and written in English (UK). The exercises, assessment and certification are easily accessed online and compatible with the commonly used browsers.

Standard Course Fee: £40 only

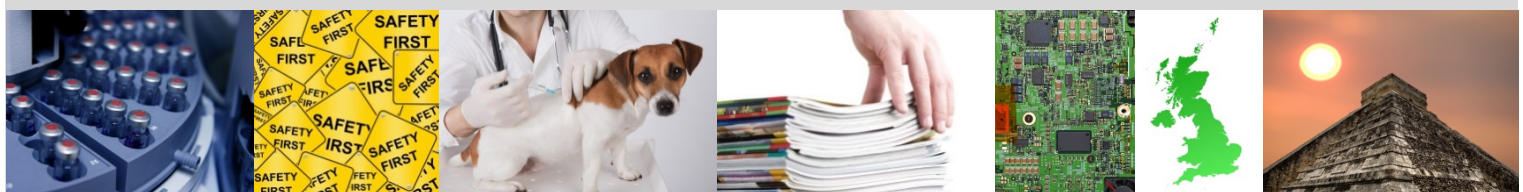

This online distance learning programme integrates the various issues related to **research protocols** in all academic disciplines.

Candidates will have access to **first-rate resources** and become part of a helpful online community.

Dedicated technical and academic support is available throughout your study from our **e-learning specialists**.

The format of this full online course includes:

- > **Pre-course exercise** (to test your knowledge and gives you an insight into the subject).
- > **Course materials** (case study, introduction and history, literature review and renowned cases).
- > **Pre-assessment exercises** (to test and consolidate your knowledge prior to the assessment).
- > **Course assessment** (3-part online assessment, 10 questions per part).
- > **Feedback and certification** (the certificate is issued when the online assessment is passed and feedback on the course is given).

We support flexible approaches with the understanding that many of our candidates have work and family commitments. All you require is a commitment of around **5 hours per week** (for 4 weeks) and an appropriate access to a networked computer.
